Dogger Bank Wind Farm

Building the world's largest offshore wind farm

Powersystems awarded the electrical cable installation works contract for Dogger Bank wind farm

Project facts and figures:

- ▶ Powersystems appointed to construct the 2.4 GW Dogger Bank wind farm A and B onshore cable route
- ▶ The work involves logistics of 192 cable drums (120 KM of HVDC cable and approx. 24km of 400 kV cable)
- ▶ Three quarters of the ducts and a third of the on-shore high voltage cables that will connect the first phases of the world's largest offshore wind farm to the UK's National Grid have now been installed
- ▶ Dogger Bank wind farm will be capable of powering 6 million homes
