

WE'RE IN THE
**RACE TO
ZERO**

Journey to Net Zero Our Commitment

'The Powersystems Climate Commitment'

Recognising that climate change poses a threat to the economy, nature and society –at-large, Powersystems commits to take action immediately in order to:

1. Halve our greenhouse gas emissions before 2030
2. Achieve net zero emissions before 2050
3. Disclose our progress on a yearly basis

In doing so, we are proud to be recognised by the United Nations Race to Zero campaign and join governments, businesses, cities, regions and universities around the world that share the same mission. **#RacetoZero**

Powersystems commitment has been made public –

We have made an internationally recognised commitment which is aligned with the latest climate science.

Chris Jenkins - Managing Director

Powersystems UK Delivering Safer Working Environments
