JOURNEY TO NET ZERO | **OUR COMMITMENT**

## 'The Powersystems Climate Commitment'

Recognising that climate change poses a threat to the economy, nature and society-at-large, Powersystems commits to take action immediately in order to:

1. Halve our greenhouse gas emissions before 2030
2. Achieve net zero emissions before 2050
3. Disclose our progress on a yearly basis

In doing so, we are proud to be recognised by the **United Nations Race to Zero** campaign and join governments, businesses, cities, regions and universities around the world that share the same mission. **#RacetoZero**

### **Powersystems commitment has been made public**

We have made an internationally recognised commitment which is aligned with the latest climate science.
